

AutoMaid is an easy to manage, web content management solution used for showcasing Vehicle Listings. Whether you are building or operate a website for an independent salesperson, a dealership, private sales or selling on consignment AutoMaid allows non-technical users and salespersons to quickly create and publish vehicle listings, using only their browser.

Easy enough for any dealership or salesperson to operate, AutoMaid makes managing and selling automobiles online simple. Users easily log into the program and create listings by entering a vehicle's information into a group of fields. (E.g. Make, Model, Type, etc) Once a user clicks save, the listing is instantly updated to the website. Prospective buyers can now view listings that match the criteria they are searching for, and inquire about the vehicle they are interested in.

Features

- Already hosted up and running with a complete business model.
- Allows individual auto dealers to maintain their individual car listings on a website.
- The administration/publishing interface is web browser-based, so it can be accessed from anywhere.
- The site design can be completely customized.
- New Buying Options
- Users Can Clip Ads
- Multiple Picture Upload
- Category Admin
- Email Updates
- Buyers Control Panel

Listings Panel

- Individual Dealers can add new listings without any HTML/FTP knowledge.
- Add new listings, modify existing listings or delete a listing.
- Search through existing listings by keyword in the administration system.
- Listings contain the following default fields: title, type, qty, price, link, year, engine, liter, drive, doors, edition etc.
- Upload up to 05 images to associate with each vehicle.

Admin Panel

- Administrator can add, modify, and erase users.
- Search for users by keyword.
- Add unlimited users to the system.
- Limit the number of listing to each Dealer.
- Approve, edit and delete Dealers listing.
- Complete accounting for dealers and their payment history.
- Ability to send email to all dealers.
- Add, edit and delete categories.

Solution Requirement

The Portal is ASP coded and Access 2000 db running at the back-end. Can be hosted on a PWS, IIS or Windows NT /2000 server or Unix server with ASP and Access DB Support.

About Us

Our mission is to help companies and entrepreneurs to explore new avenues in terms of providing them business guides, business ideas with completed business model and feasibility study as an out-of-the-box package.

As a leading provider of business information and eSolutions, CdMax.biz is perfectly positioned to deliver the technology and knowledge base that organizations need today and will depend on in the future.

Our eSolutions are pre-designed and hosted ready to run in days, rather than the usual six months – and with virtually no teething problems.
